

TOWNSHIP 1 NORTH, RANGE 75 WEST, 6th P.M.
A SURVEY IN SECTION 34 GRAND COUNTY, COLORADO

HISTORY OF SURVEYS

The original survey of Township 1 North, Range 75 West was performed by James M. Boggs, with the plat officially approved May 24, 1882.
Aug. 3, 1928 to July 28, 1929 a Dependent Resurvey was performed by Albert B. Rich, who surveyed the North Boundary, and Hans D. Volgt, who surveyed the East, South, and West Boundaries and subdivisional lines. The plat was officially approved Aug. 3, 1931 and accepted Jan. 7, 1932.

BASIS OF BEARINGS

The Northwest Corner and West 1/4 Corner of Section 34 were recovered as described in the official G.L.O. notes. The record bearing as controlled by the ground position of these two undisturbed monuments was taken as the base for determination of the true meridian.

SURVEY METHOD

A base traverse of four loops was surveyed, occupying all of the found G.L.O. control corners. Upon closure and adjustment, missing aliquot corners on the National Forest Boundary were established from the nearest main traverse points using a closed traverse.

Contract No. 53-82FT-5-22

Project: FY85 CADASTRAL SURVEY

Dates of Survey:

May 27, 1986 to Oct. 16, 1986

LEGEND
